

PERFORMA, INC. WINS “NEXT GENERATION BEST PLACE TO WORK” AWARD

De Pere, WI
March 7, 2017

On Thursday, February 23, 2017, Performa was presented the award for “Next Generation Best Place to Work” from the Greater Green Bay Chamber and Current at the annual Future 15 & Young Professionals Awards.

The “Next Generation Best Place to Work” recognizes a business that demonstrates a commitment to the development of young professionals, has positive work-life policies, values generational differences, and institutes attraction and retention initiatives for young professionals. Performa was selected to win the award over seven other businesses that made the finalist list and many businesses that were nominated.

During his acceptance speech, President and COO Doug Page shared, “Culture is the manifestation of what a leader believes in. We believe in freedom. The freedom for each of our employees to pursue those things they are passionate about, both personally and professionally. And we encourage the line between these to be blurred.” In closing, he shared a powerful message, “We exist to serve...we exist to serve our clients; we exist to serve our community; and at Performa we exist to serve each other.”

Performa, Inc. was founded in 1995 as a privately owned service corporation. Performa is an architectural and engineering firm that helps organizations succeed by collaboratively designing superior performing environments™ that facilitate organizational success.
